Coos Bay District BLM Planning Update

Spring 2018

The *Planning Update* is published to provide current information about ongoing and future projects planned by the Coos Bay District of the Bureau of Land Management. It is our intent to increase the public's awareness of BLM activities and to seek feedback from those who may be affected by our resource management programs. Your feedback helps us make informed decisions and implement better projects. Please send written comments, including the specific project and field office name, during that project's public comment period to: 1300 Airport Lane, North Bend, OR 97459 or to BLM_OR_CB_Mail@blm.gov.

Thank you for your continued interest in public land management.

The *Planning Update* is also available under the "Frequently Requested NEPA Documents" section at: <https://www.blm.gov/programs/planning-and-nepa/plans-in-development/oregon-washington>

Sincerely,

/s/ Kathy Westenskow-Davis
Coos Bay District Manager

USDI - Bureau of Land Management
Coos Bay District Office
1300 Airport Lane
North Bend OR 97459
BLM_OR_CB_Mail@blm.gov
(541) 756-0100

ON-GOING PROJECT UPDATES AND NEW PROJECTS

Pages three through ten contain a summary of projects on the Coos Bay District. Some projects were previously listed and are still in the process of being completed, while others are in the process of being implemented. Projects that have been dropped from consideration, have a signed decision, or are completed will not be listed in future issues.

The contact people listed with the projects are available to answer questions and provide additional details. They are interested in information you wish to share concerning any of the projects or project areas. You may contact these people by mail, by telephoning our office at 541-756-0100, or emailing us at: BLM_OR_CB_Mail@blm.gov.

Categorical Exclusions

Required analysis for categorically excluded activities is generally completed within a one to four-week time frame. This frequently occurs in between publications of the *Planning Update*. These types of projects are generally routine activities or require timely processing. A listing of completed categorical exclusions may be found on the National *ePlanning* website. Current ongoing or planned Categorical Exclusions are included in this issue.

Chetco Bar Fire Timber Salvage CX

DOI-BLM-ORWA-C040-2018-0002-CX

Description: The Myrtlewood Field Office is proposing a post-fire salvage on 140 acres of BLM-administered land. The salvage would occur on 12 units ranging in size from 1 to 37 acres in the Moderate Intensity Timber Area Harvest Land Base land use allocation as defined in the Northwestern and Coastal Oregon Record of Decision and Resource Management Plan (2016 ROD/RMP). Land use allocations excluded from salvage in this project are the Riparian Reserve, District Designated Reserve, and Late-Successional Reserve.

Location: T. 39 S., R. 13 W., Sections 1, 2, 11, 13-15, 22, 23, 25-27

Planning Status: Scoping – Completed.
Analysis – Completed.

Decision Date: Decision Documentations – Finalized 5/18.

Implementation: Timber sales planned for summer FY 2018 and 2019.

District-wide

Coos Bay District Invasive Plant Management EA

DOI-BLM-ORWA-C000-2017-0003-EA

Description: The action is to utilize additional herbicides to treat noxious and invasive weeds species. Additional site-specific EAs will be completed for limited application for general vegetation control around facilities and for habitat improvement. The action does not include aerial application of herbicides or herbicide use for timber or livestock production.

In 2007, the BLM completed the Vegetation Treatments Using Herbicides on Bureau of Land Management Lands in 17 Western States Programmatic Environmental Impact Statement (EIS) and related Record of Decision, making 18 herbicides available for a full range of vegetation treatments in 17 western states, including Oregon. The BLM completed a statewide EIS and Record of Decision in 2010, *Vegetation Treatments Using Herbicides on BLM Lands in Oregon*. This EA tiers to those broader-scale environmental impact statements.

Location: Throughout the District.

Planning Status: Scoping – Completed.
Analysis – Ongoing.

Decision Date: Decision Record – TBD.

Implementation: Following Decision.

For further information, please click on the following link <https://eplanning.blm.gov/epl-front-office/eplanning/planAndProjectSite.do?methodName=renderDefaultPlanOrProjectSite&projectId=76469> or contact Jeanne Standley.

Helipond and Pump Chance Maintenance EA

DOI-BLM-ORWA-C000-2016-0002-EA

Description: The project would maintain the long-term utility and function of heliponds and pump chances at approximately 29 heliponds and 36 pump chances.

Location: Various locations throughout the District.

Planning Status: Scoping – Completed.
Analysis – Ongoing.

Decision Date: Decision Record – FY 2018

Implementation: Following Decision.

Umpqua Field Office

TIMBER MANAGEMENT

West Fork Smith River EA

DOI-BLM-ORWA-C030-2017-0001-EA

Description: The BLM proposes approximately 2,500 acres of density management treatments in the Late-Successional Reserve and Riparian Reserve land use allocations.

Location: T. 19 S., R. 09 W., Sections 25 and 35;
T. 20 S., R. 09 W., Sections 1, 2, 3, 10, 11, 12;
T. 19 S., R. 08 W., Sections 30 and 31;
T. 20 S., R. 08 W., Section 9.

Planning Status: Scoping – Completed.
Analysis – Ongoing.

Decision Date: Decision Documentations – Starting in FY 2019.

Implementation: Timber Sales planned for FY 2019 through FY 2020.

For further information, please click on the following link <http://tinyurl.com/zcurez4> or contact Heather Partipilo.

Big-Vincent EA

DOI-BLM-ORWA-C030-2011-0003-EA

Description: The BLM proposes approximately 6,300 acres of commercial thinning, density management, and hardwood conversion treatments in the Matrix, Late-Successional, and Riparian Reserve land use allocations.

Location: T. 21 S., R. 07 W., Sections 7 and 18;
T. 21 S., R. 08 W., Sections 1, 7, 9, 10, 11, 12, 13, 15, 16, 17, 19, 21, and 29;
T. 21 S., R. 09 W., Sections 1, 2, 3, 11, 12, 13, 14, 21, 23, 27, 29, and 32.

Planning Status: Scoping – Completed.
Analysis – Completed.

Decision Date: Decision Documentations – through FY 2018.

Implementation: Timber Sales planned through FY 2018.

For further information, please click on the following link <https://eplanning.blm.gov/epl-front-office/eplanning/planAndProjectSite.do?methodName=renderDefaultPlanOrProjectSite&projectId=52995&dctmId=0b0003e8808fbae7> or contact Heather Partipilo.

OTHER

Blue Ridge Beam Path DNA

DOI-BLM-ORWA-C030-2018-0002-DNA

Description: The BLM proposes to cut trees along one of the beam paths (Beam Path 6) analyzed in the Blue Ridge Communication Site Beam Path Maintenance and Fuels Reduction Environmental Assessment (EA) ([DOI-BLM-ORWA-C030-2010-0007-EA](#)). The beam path on BLM-administered lands is approximately 4,650 feet long and 40 feet wide (approximately 4.3 acres).

Location: Willamette Meridian, Oregon— T. 26 S., R. 12 W. Section 35 and T. 27 S., R. 12 W., Sec. 02

Planning Status: Analysis/Review—Fall 2017–Spring 2018

Decision Date: FY 2018

Implementation: 2018 or 2019

For further information, contact Heather Partipilo.

Myrtlewood Field Office

TIMBER MANAGEMENT

Six Twigs

DOI-BLM-ORWA-C040-2013-0003-EA

Description: This project includes 217 acres of regeneration harvest in the Matrix land use allocation.

Location: T. 31 S., R. 14 W., Sections 7, 14, 15, 18, 22, 23, 28, 29, 30, 31, and 32;

Planning Status: Scoping – Completed.
Analysis – Completed.

Decision Date: Decision Documentations – Ongoing.

Implementation: Ongoing.

For further information, please click on the following link <http://1.usa.gov/23rZUnT> or contact Ryan Desliu.

Lone Pine

DOI-BLM-ORWA-C040-2011-0006-EA

Description: This project includes 3,727 acres of commercial and density management thinning in the Matrix and Riparian Reserve land use allocations.

Location: T. 27 S., R. 11 W., Sections 21 and 35; T. 27 S., R. 12 W., Section 35;
T. 28 S., R. 09 W., Section 17; T. 28 S., R. 10 W., Section 22;
T. 28 S., R. 11 W., Sections 1, 2, 3, 5, 7, 17, 19, 29, 31, and 32;
T. 28 S., R. 12 W., Sections 1, 13, 23, 25, 27, and 35;
T. 29 S., R. 11 W., Sections 5 and 7; T. 29 S., R. 12 W., Section 12.

Planning Status: Scoping – Completed.
Analysis – Completed.

Decision Date: Decision Documentations – Ongoing.

Implementation: Timber sales planned for FY 2014 through FY 2018.

For further information, please click on the following link <http://1.usa.gov/1hHAc8v> or contact Jeff Davis.

Upper Rock Creek

DOI-BLM-ORWA-C040-2016-0007-EA

Description: This project includes approximately 1241 acres of forest management through regeneration harvest and commercial thinning in the Harvest Land Base and Riparian Reserve within the Middle Fork Coquille River 5th field watershed.

Location: T. 29 S., R. 09 W., Sections 7, 17, 21, 29;
T. 30 S., R. 09 W., Sections 5, 17.

Planning Status: Scoping – Completed.
Analysis – Ongoing.

Decision Date: Decision Documentations – starting FY 2019.

Implementation: Timber sales planned for FY 2019 through FY 2021.

For further information, please click on the following link <https://goo.gl/bJVT7Q> or contact Ryan Desliu.

Shark Bait DNA

DOI-BLM-ORWA-C040-2017-0006-DNA

Description: This project includes approximately 69 acres of forest management through regeneration harvest within a previously thinned area of the Ocean View CT Timber Sale (ORC00-TS-2014.0034).

Location: T. 31 S., R. 14 W., Sections 22 and 23

Planning Status: Scoping – Completed.
Analysis – Completed.

Decision Date: Decision Documentation – Advertised 5/25/2018.

Implementation: Timber sale planned for FY 2018.

For further information, please click on the following link <https://goo.gl/Aa5kCC> or contact Ryan Desliu.

OTHER

New River ACEC Management Plan EA

DOI-BLM-ORWA-C040-2014-0004-EA

Description: Over that last 10 years, the New River ACEC has experienced changes in vegetation patterns, invasive species, federally protected species, and recreation use trends. The BLM has identified a need for updating the management plan in order to respond to these changes with appropriate management actions.

Location: T. 29 S., R. 15 W., Sections 35, and 36;
T. 30 S., R. 15 W., Sections 2, 3, 10, 11, 15, 21, 22, 28, 32, and 33;
T. 31 S., R. 15 W., Sections 7, and 8.

Planning Status: Scoping – Completed.
Analysis – Ongoing.

Decision Date: Decision Record – FY 2018 or 2019.

Implementation: Following Decision.

For further information, please click on the following link <https://goo.gl/xUYZCY> or contact Cathy Bounds.

Definitions and Abbreviations

Area of Critical Environmental Concern (ACEC) – Lands where special management attention is needed to protect and prevent irreparable damage to important historic, cultural, or scenic values, fish, and wildlife resources or other natural systems or processes or to protect life and provide safety from natural hazards.

Categorical Exclusion (CX) – Actions which do not have significant effects on the environment and for which an Environmental Analysis (EA) or an Environmental Impact Statement (EIS) is not required.

Commercial thinning (CT) – Stand thinning in which some or all of the cut trees are removed from the stand for timber. ‘Commercial thinning’ in this context does not include individual tree falling or stand thinning in which all the cut trees are left in the stand or some of the cut trees are moved for restoration purposes, or fuels reduction treatments in which cut trees are burned, chipped, or otherwise disposed of without removal from the stand for timber. ‘Commercial thinning’ may be implemented through a variety of mechanisms, including timber sale contracts and stewardship agreements or contracts.

Determination of NEPA Adequacy (DNA) – Documentation of BLM’s internal analysis process that a proposed action conforms to its land use plan and is adequately analyzed in an existing NEPA document.

Environmental Assessment (EA) – This is a concise public document that briefly provides evidence and analysis of a proposed Federal action. It is used to determine whether further analysis needs to be done for an Environmental Impact Statement (EIS) or a Finding of No Significant Impact (FONSI).

Finding of No Significant Impact (FONSI) - This is a document that briefly presents the reasons why the implementation of an action will not result in “significant” environmental impacts (effects) beyond those already addressed in the *Final Coos Bay District Proposed Resource Management Plan/Environmental Impact Statement (USDI 1994)* or the *Final Proposed Resource Management Plan/Final Environmental Impact Statement for the RMPs for Western Oregon (USDI 2016)*.

Land Use Allocation – The identification in a land use plan of the activities and foreseeable development that are allowed, restricted, or excluded for all or part of the planning area, based on desired future conditions.

National Environmental Policy Act (NEPA) – A federal law which sets the systematic interdisciplinary analysis to achieve integrated consideration of physical, biological, economic, and other sciences to provide for an informed decision. The process provides for public participation in the development, review and revision of certain activities on Federal Lands.

Public Involvement/Scoping - An early and open part of environmental analysis that allows interested public and other Federal, state and local agencies the opportunity to provide issues, concerns and opportunities relative to proposed project actions. Scoping is required by regulation for Environmental Impact Statements and is optional for Environmental Assessments.

Regeneration harvest(ing) – Any removal of trees intended to assist regeneration already present or make regeneration possible.

Resource Management Plan (RMP) – A land use plan as prescribed by the Federal Land Policy and Management Act that establishes, for a given area of land, land-use allocations, management objectives, and management direction.

Right-of-way (R/W) – A permit or an easement that authorizes the use of public lands for specified purposes, such as pipelines, roads, telephone lines, electric lines, reservoirs, and the lands covered by such an easement or permit.

Salvage harvest(ing) – Removal of dead trees or of trees damaged or dying because of injurious agents other than competition, to recover their economic value.
