

Welcome to the First Beaty Butte Mustang Adoption Event

Saturday, April 14, 2018

10 saddle-started wild horses
available for adoption

10 a.m. — Preview and demonstrations

1 p.m. — Introduction to a new approach to
wild horse management in the West

2 p.m. — Competitive-bid adoption begins

Meet the horses

Barry #4074

Age: 2
Sex: Gelding

Hands: 14.2

Barry is a really nice, gentle, free-moving guy. He is a natural with cattle and very alert to his surroundings.

Please Note: All of these horses are “green broke” and will need further training to reinforce what they have learned after they are adopted. For 2-year-olds, they are quiet and gentle, but they are still young horses and will require experienced riders.

All horses have been loaded/unloaded in trailers. They have been ridden in the mountains in snow, mud, trees and rocks. They have been exposed to cattle, dogs and traffic and don't show any problems. All in all, they have been a pleasure to train and we look forward to hearing of their progress after this adoption event!

 Beaty Butte Wild Horses

Bumpy #4157

Age: 2
Sex: Gelding
Hands: 13.1

Bumpy has been under saddle and ridden. For his size, he is a traveler, currently being trained to pull a riding cart around.

sions. Barbed wire, large-mesh-woven, stranded, and electric materials are unacceptable for fencing.

Some form of shelter must be available, within the corral area, to mitigate the effects of inclement weather and temperature extremes; examples of acceptable shelter may be of natural cover (tree, etc.) or man-made structure.

Do I have to pick up the horse I adopt the day of the adoption?

Yes, you should plan to load the horse for transport at the end of the sale.

Do I have to be present to adopt a wild horse? Can I send my friend?

You must be present to adopt a wild horse. You cannot send a family member or a friend. The person signing the Private Maintenance and Care Agreement will be the legal adopter and the only person that can apply for title after a year of proper care.

What are the BLM's trailer requirements for hauling my horse home?

The BLM recommends stock type trailers; three horse slant load trailers are acceptable. Other types of trailers will be evaluated on a case-by-case basis. BLM requires trailers meet the following minimum requirements:

- Covered top, sturdy walls and floors, and a smooth interior, free from any sharp protrusions.
- Ample head room, adequate ventilation and floors covered with a non-skid material.
- Removable partitions or compartments to separate animals by size and sex, if necessary.
- BLM personnel will inspect the safety of each trailer and reserves the right to refuse loading if the trailer is unacceptable.

Clyde #4051

Age: 2
Sex: Gelding
Hands: 14.3

Clyde is a pleasure to ride outside and very sure footed. He has a sweet disposition, but can be hard to catch.

Frequently Asked Questions

How do I qualify to adopt a horse?

Applications will be available at the training center the morning of the event. An application must be submitted to receive a bid card.

Adoption Requirements at a Glance

- Must be 18 years old. Parents or guardians may adopt and allow a younger family member to care for the animal.
- Have no prior conviction for inhumane treatment of animals or for violating the Wild Free-Roaming Horse and Burro Act.
- Have adequate feed, water and facilities (at least 400 square feet for each animal) to provide humane care for the number of animals requested.
- Provide a home for the animal in the United States until you receive Certificate of Title from the BLM.

What types of payment are accepted?

The BBWHTF accepts credit cards, personal checks, money orders, travelers' checks, and cash as payment for adoption fees.

How much training do the horses actually have?

These horses are "green-broke" which means they have received up to 100 hours of individual training. These horses will continue to need daily training to reinforce the basics they have learned. Most horses will initially need an experienced rider.

Do I need to provide special care for an adopted horse?

The minimum size corral is 20' x 20'. Even though these horses are green broke, they may still startle easily and attempt to jump over the corral, therefore a corral height of a minimum of 6' is required and be made from heavy duty construction materials using poles, pipes, or planks with at least 1 ½ inch thickness, without dangerous protrusions.

Bascoe #3293

Age: 5
Sex: Gelding
Hands: 15.2

Bascoe was trained by Zack Maita and has been day worked on moving cows. He is sensitive on the ground, but gentle to ride.

DA #4050

Age: 2
Sex: Gelding
Hands: 14.4

DA is our biggest 2-year-old. He will walk up to you in the pasture just to be petted, is gentle to ride and would be a good trail horse for the mountains.

Flash #4161

Age: 2
Sex: Gelding

Hands: 14.2

Flash is very gentle and easy to catch. Although gentle he is sensitive. He has a good mind and is natural around cattle.

Lefty #4167

Age: 2
Sex: Gelding

Hands: 14

Lefty would make a good prospect for a kid to learn on. He is gentle and is the first to grain to be haltered.

Napoleon #4078

Age: 2
Sex: Gelding

Hands: 14

Napoleon is very gentle and willing to do anything you ask of him. He got his name for good reason, not much seems to bother him.

Oly #3100

Age: 5
Sex: Gelding

Hands: 15.2

Oly was one of the original horses Zack Maita trained. We use him for a pony horse to our 2-year-olds outside. He is a solid guy and would make anyone a good versatile horse.
