

Cliffside Refiners Limited Partnership Meeting

February 23, 2021 @ 9:00 AM

Attendees:

(Cliffside) Mark M. Brad H.
(Downtown) Sam B. Emress B. Mark W.
(NOC) David S.
(CRLP) Nick D. Bob L. Brad B. John S. Bobby S.
Kaylyn S. Mike D. Mike C.

Roll Call

➤ Noted

Nick D.-Antitrust guidelines apply. If there are any questions, please let me know.

Any update on COVID?

Sam B.-No changes from BLM.

Nick D.-Good news all around for COVID cases.

Moving on to operations. We did defer this week's planned outage, we did not reset a date, we will talk about that. We talked about the cold weather and how that affected the plant.

Mark M.-Pressure is over 1000. We were continuing to ramp up Bivens A6. Saturday morning AP drove down and we got started. The purge was very successful. The disassembly and reassembly went very fast. We proceeded to bring the booster back online and continue plant startup. We are stable right now. Bottom line is we got through the ups and downs and got it started back up.

Brad B.-Mark did they give you a sample of what they pulled out.

Mark M.-Yes and I have to admit I was wrong it was not rust. What they pulled out was a pretty thick layer, about ¼ inch, of dust around the vacuum cleaner. It was like talcum powder and black. We need to replace that screen every 6 months.

Nick D.-Sam do you have any information for those on the call?

Sam B.-We do have the plant running again so we are allowing folks to take gas. Please let us know if you have any changes as we lead up to the March 15th outage.

Nick D.-I sent out the bypass review some were closed out a couple were added. It seems to be it is being worked and that is the idea of it so thank you Mark.

Brad B.-Have you heard anything from the power company?

Mark M.-No I haven't heard anything.

Sam B.-I haven't heard anything from them.

Nick D.-Ok moving on to maintenance projects, we all agreed that today was not a good day to start mechanical work. John will look forward to April or later time frame for machinery. The next one up will be the AP work.

Ok anything else?

Alright we will talk next week.
