Lands: 115.3 acres, out of NE/4 of Section 11, Block 33, T1S, T&P Ry. Co. Survey, Howard County, Texas, being further described by metes and bounds in that certain Warranty Deed dated 2/28/1957, between C. L. Wasson as Grantor and USA as Grantee, being recorded in Volume 238, Page 455 of the Deed Records of Howard County, Texas.

To Whom It May Concern,

We would like to nominate the above tract for inclusion in the next available competitive oil and gas lease sale; however, according to the rules outlined on the 'Guidelines for Submitting an Expression of Interest' page on blm.gov, "Lands within City Limits" are **NOT** available for leasing.

As this 115.3 acre tract is located within the City Limits of Big Spring, Texas, it appears that this tract will go unleased and therefore the minerals under said tract will never be developed by the U.S.A. and further that it appears that future development could potentially drain said unleased minerals, we respectfully ask that these lands, together with any other lands owned by the U.S.A. with in Sections 2, 3, 10, 11, Block 33, T-1-S, T&P Ry. Co. Survey, Howard County, Texas be considered for disposal via sale under the BLM's Resource Management Plan for the State of Texas.

Per a conversation with Laurence Levesque, with the BLM, we recognize that the U.S.A. may not have records covering its ownership in the 115.3 acre tract referenced above. I have included title documents from the two interest holders, at the time, into the U.S.A. and subsequently Deed from the U.S.A. conveying the SURFACE ONLY of said 115.3 acre tract to an individual.

Please consider our request and notify us upon reaching a decision on this matter.

Sincerely,

Shane D. Snow
