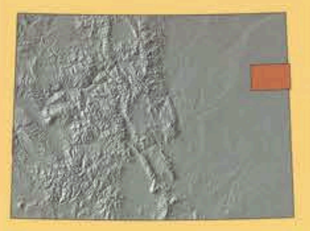
BLM 2022



Surface Management Status
1:100,000-Scale Topographic Map

2022

U.S. DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT

Edited and published by the Bureau of Land Management National Operations Center in cooperation with the Bureau of Land Management Colorado State Office.
Planimetry partially revised by Bureau of Land Management from various source materials. Revised information not field checked.

Public Land Survey System derived from the Bureau of Land Managements Geographic Coordinate Data Base. Land status and other source information compiled by Bureau of Land Management. Hypsography, Hydrography, Boundary, and Transportation data derived from U.S. Geological Survey 1:100,000 scale digital line graphs. Transportation data were compiled from BLM corporate data, managing agency public data, and state DOT. Digital line graphs based on 1:100,000 scale quadrangle map dated 1983.

Lambert Conformal Conic Projection
North American Datum 1983
National Geodetic Vertical Datum of 1929

There may be private inholdings within the boundaries of the National or State reservations shown on this map. Land lines are omitted in areas of extensive tract surveys.

THIS MAP COMPLIES WITH NATIONAL MAP ACCURACY STANDARDS

In general, BLM Public Lands are open to a number of recreational activities in addition to those that may be highlighted on the map. These activities include camping, fishing, hiking, and hunting. Certain restrictions may apply. Contact appropriate BLM State, District, or Field Office for more information.

Area to be submerged; marsh, swamp
Land subject to controlled inundation
Special area boundary
Recreation area boundary; special area boundary
Back country, scenic byway
Roads with known public access
National Wild and Scenic Rivers

NOTE TO MAP USERS

The surface and minerals management status overprints are published as general planning and management tools. Some of the lands, surface and mineral rights, may have been shown as patented lands due to the lack of information available to BLM with respect to the nature of acquisition. Tracts less than 40 acres are usually omitted because of the map scale. The official land records in the respective offices of the Bureau of Land Management or other responsible Federal agencies should be checked for up-to-date status on any specific tract of land. Inadequacies in the BLM maps should be reported to the respective Bureau of Land Management offices from which the maps were obtained.

PUBLIC ACCESS

Roads crossing public lands may be travelled by the public unless closed by signing or notice by the land management agency. Public lands intervened by private lands may not have public access. Permission is required from the private landowner to cross private lands, unless access is provided by a Federal, State, or County road, or a BLM road with legal access.
