# Temperature & Precipitation Last 30 Days

## Temperature

## Precipitation

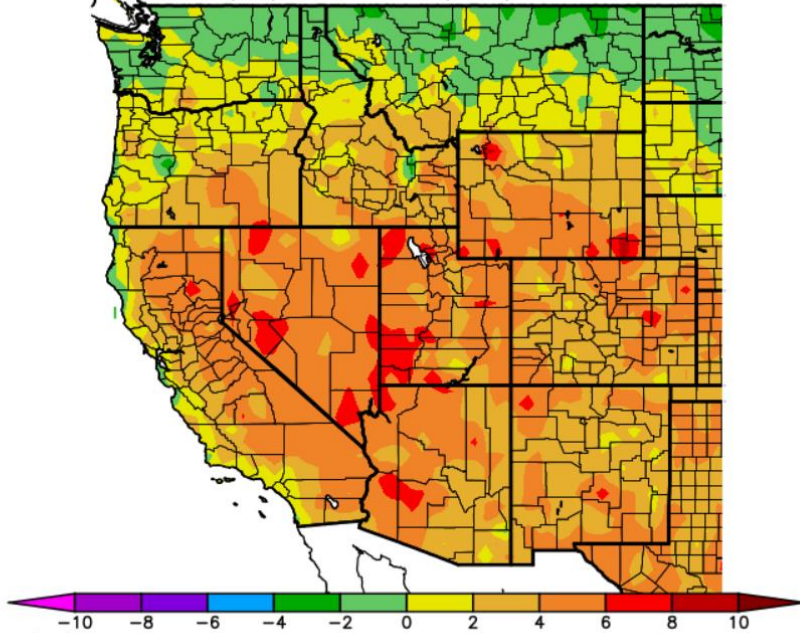

# Early-Mid Summer Heat

## June Temperature

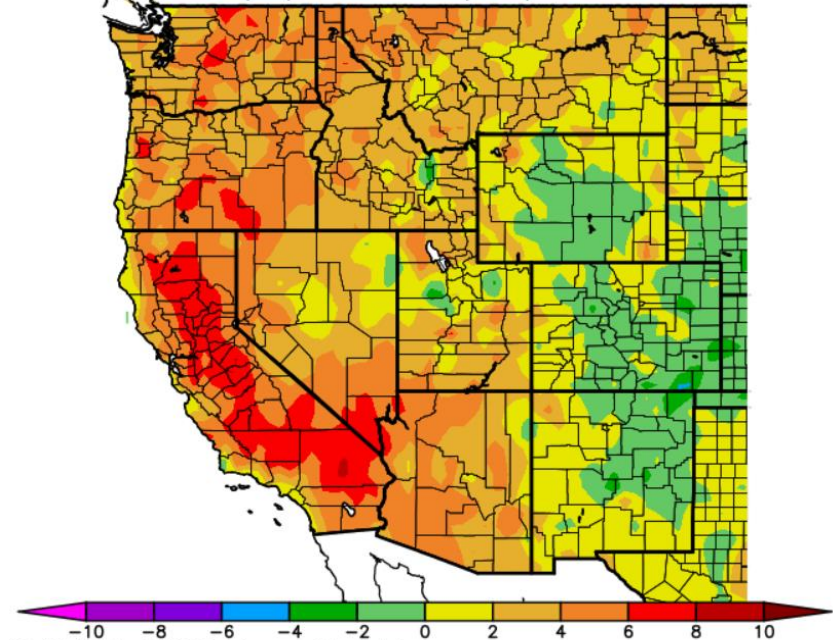

Ave. Temperature dep from Ave (deg F)  
6/1/2024 – 6/30/2024

Generated 7/ 1/2024 at WRCC using provisional data.  
NOAA Regional Climate Centers

## July Temperature

Ave. Temperature dep from Ave (deg F)  
7/1/2024 – 7/30/2024

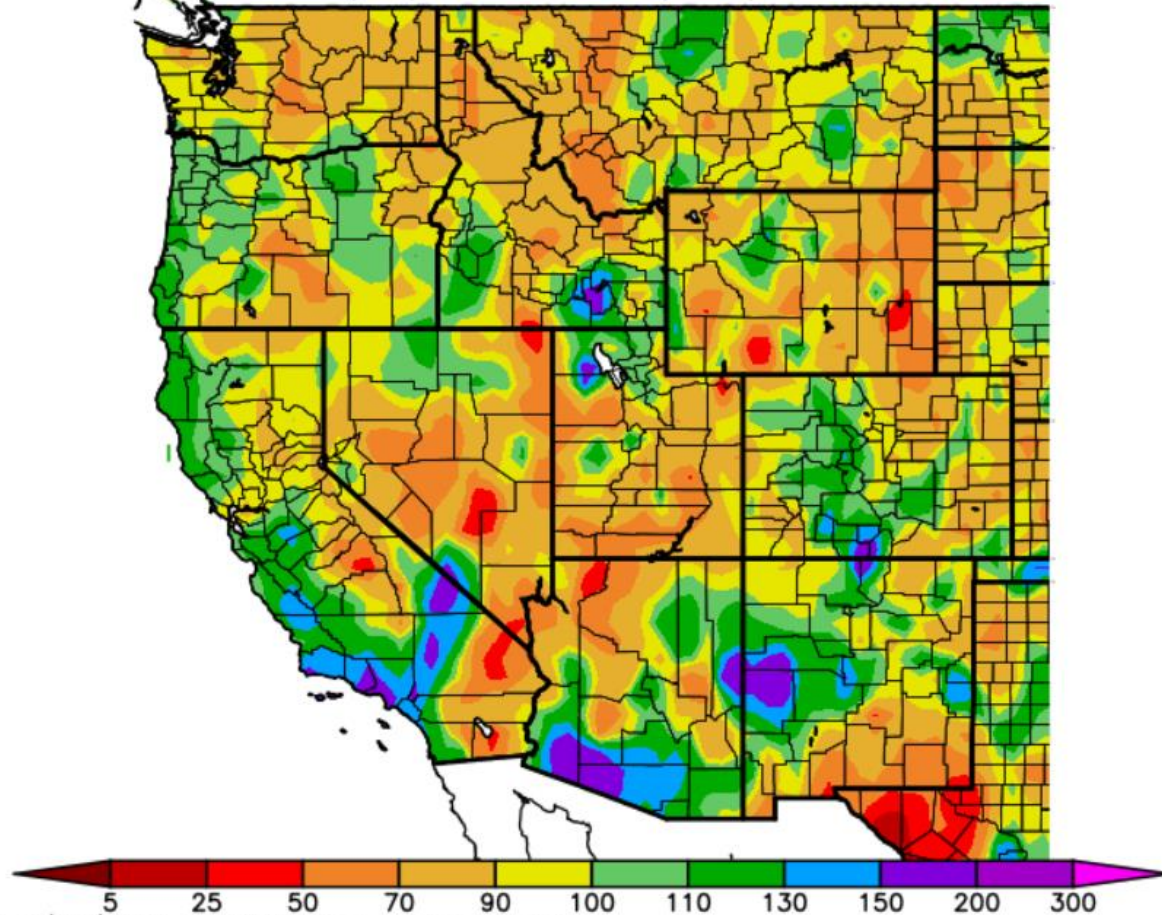

Generated 7/31/2024 at WRCC using provisional data.  
NOAA Regional Climate Centers

# Precipitation: Since Oct 1, 2023

Percent of Average Precipitation (%)  
10/1/2023 – 7/30/2024

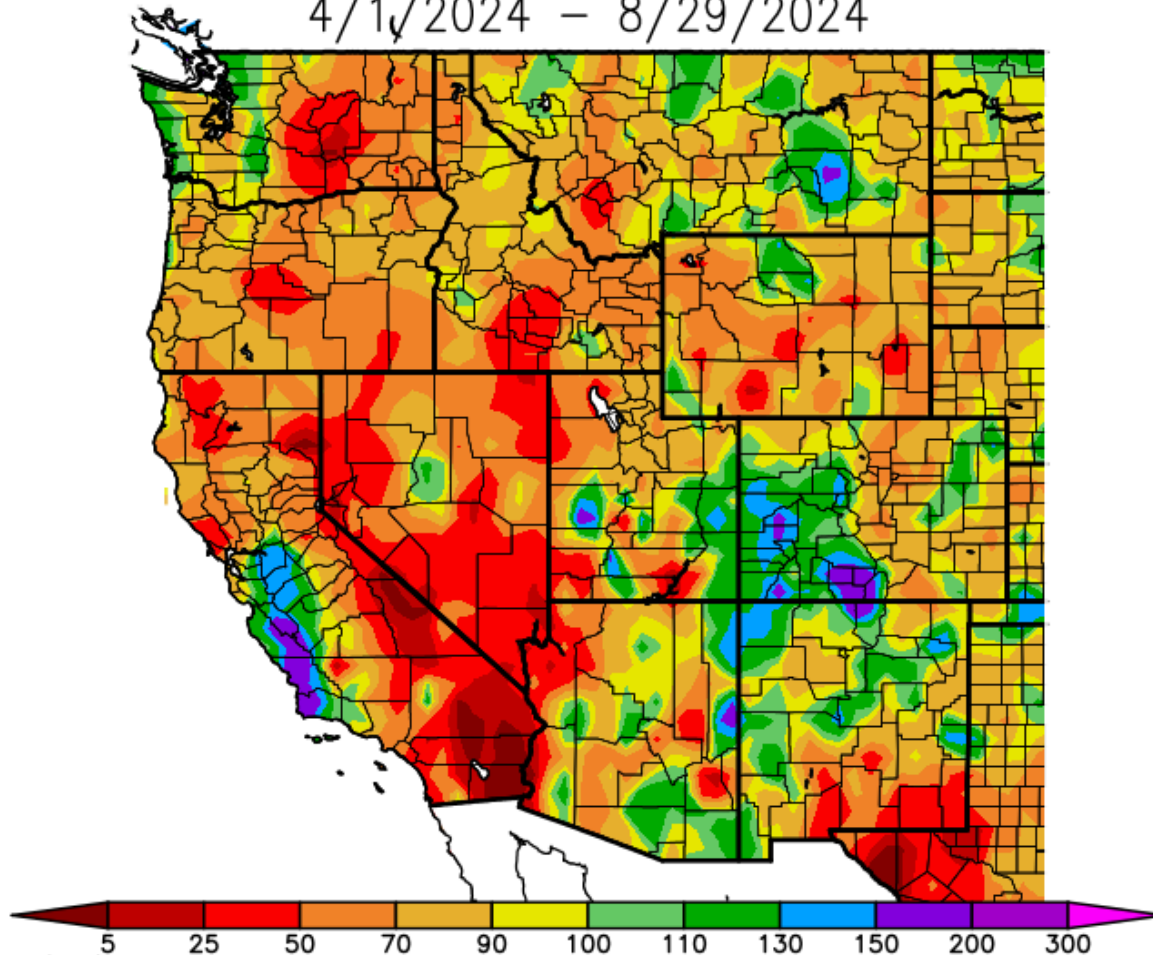

Generated 7/31/2024 at WRCC using provisional data.  
NOAA Regional Climate Centers

# Precipitation: Since April 1<sup>st</sup>, 2024

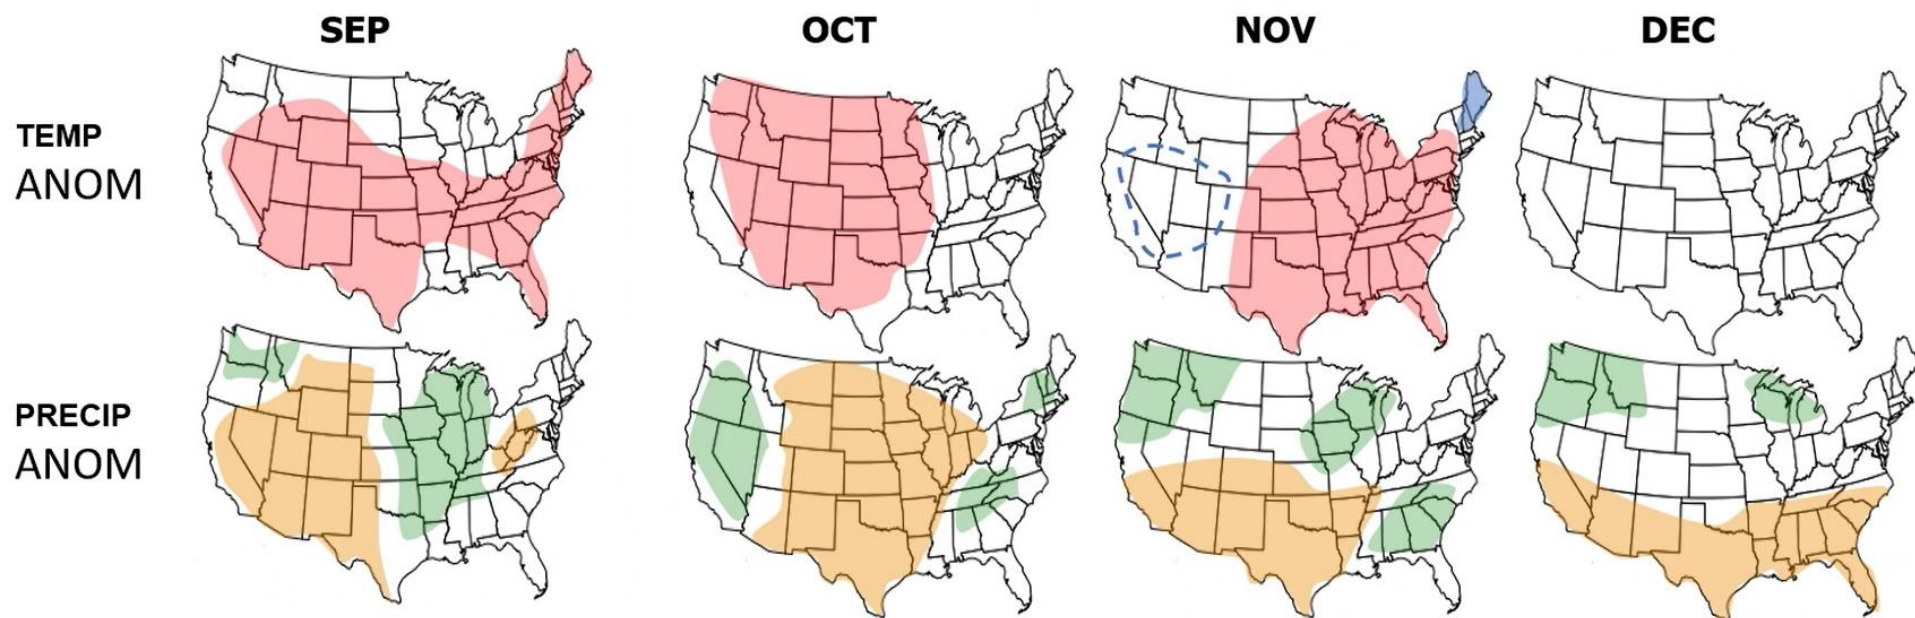

Percent of Average Precipitation (%)  
4/1/2024 – 8/29/2024

Generated 8/30/2024 at WRCC using provisional data.  
NOAA Regional Climate Centers

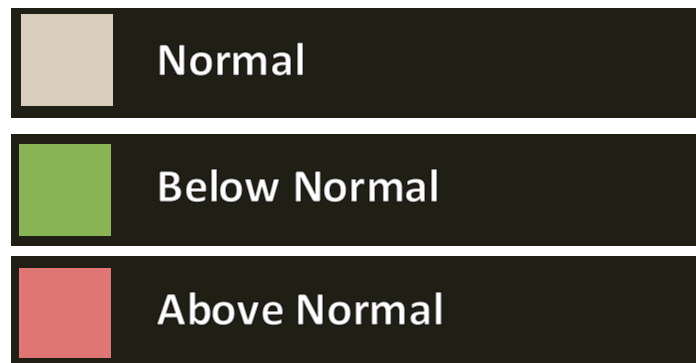

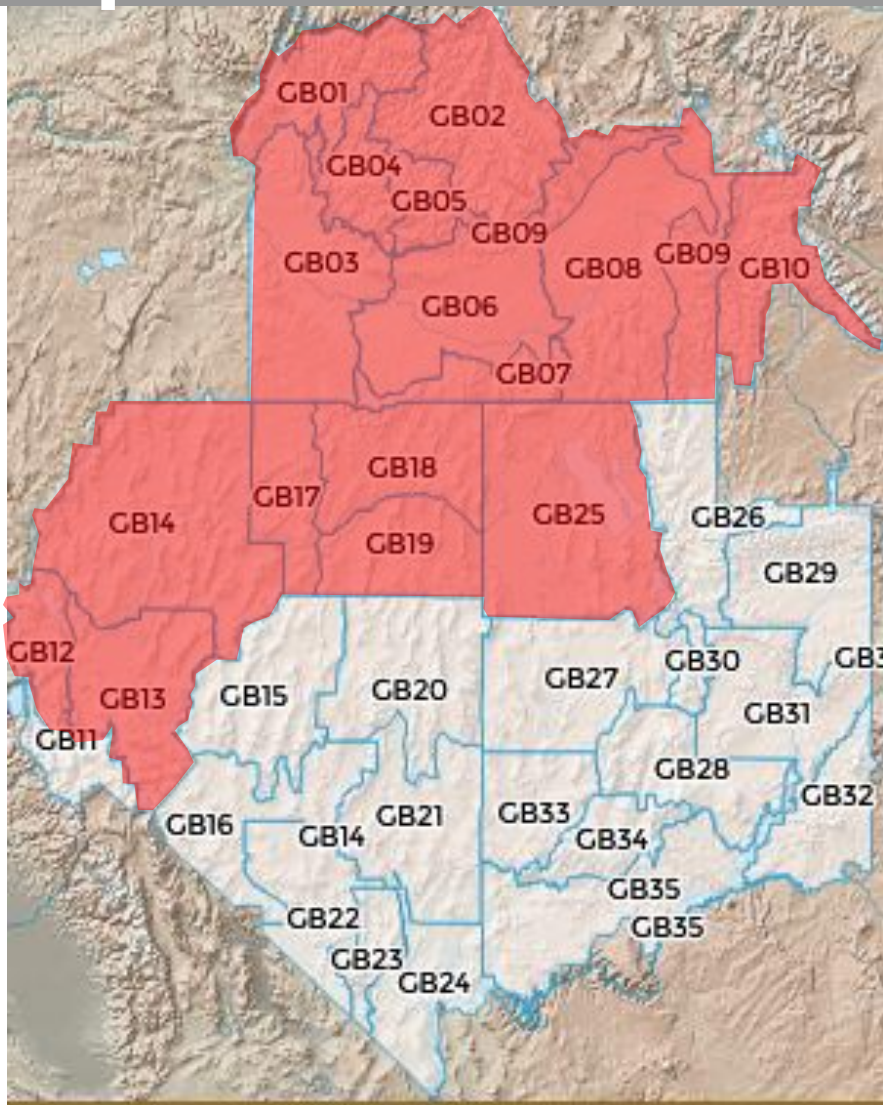

# Predictive Services Outlook: September – December 2024

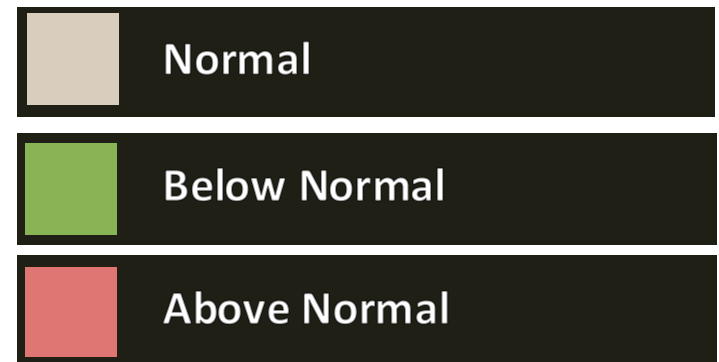

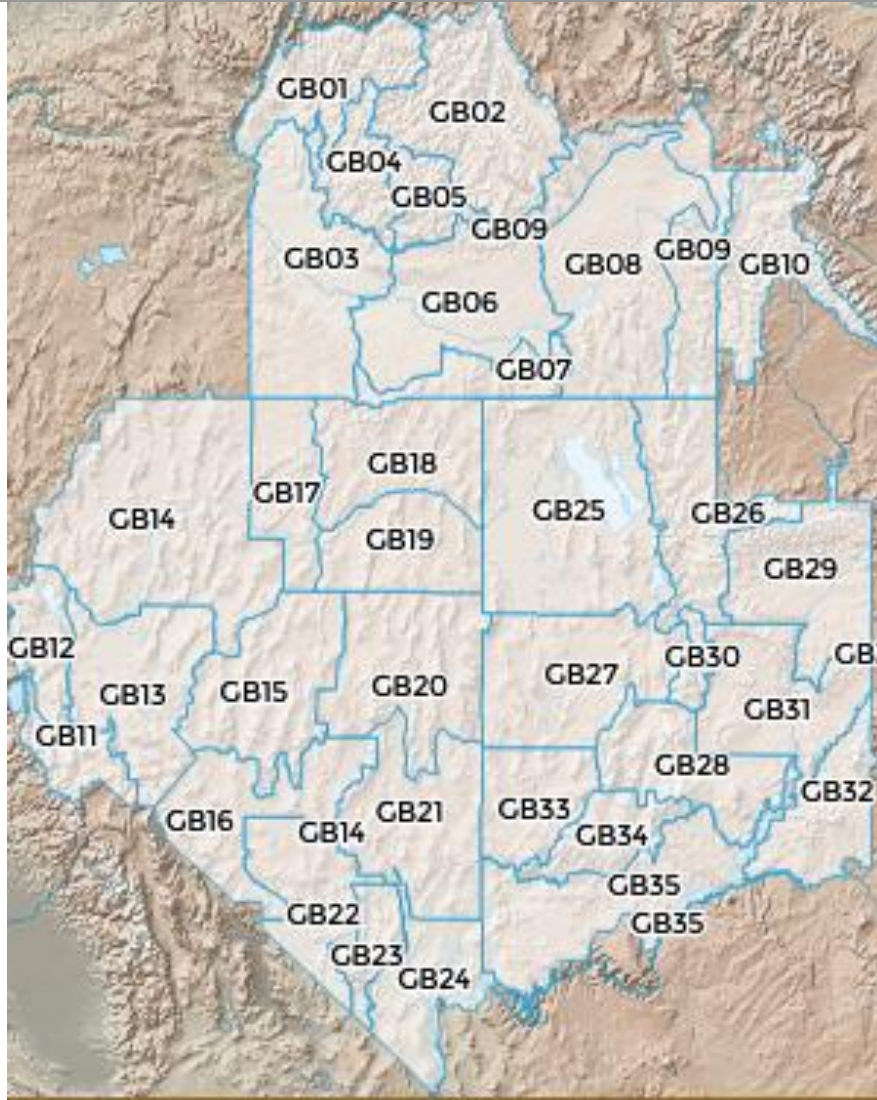

# September 2024

# October-December 2024

# GBCC Fire Potential Outlook: September – December 2024

Above normal significant wildland fire potential indicates a greater than usual likelihood that significant wildland fires will occur. Significant wildland fires should be expected at typical times and intervals during normal significant wildland fire potential conditions. Significant wildland fires are still possible but less likely than usual during forecasted below normal periods.

Above normal significant wildland fire potential indicates a greater than usual likelihood that significant wildland fires will occur. Significant wildland fires should be expected at typical times and intervals during normal significant wildland fire potential conditions. Significant wildland fires are still possible but less likely than usual during forecasted below normal periods.
