Hi Donna

As discussed on the phone with Rick Trupp and myself please use the number of the landings and takeoffs at 300.00.

This estimated number maybe on the high end, we may go under but don't anticipate on going over.

Please let me know if you need anything else.

Hi Sue,

Would you please verify the total number of helicopter take offs that are anticipated to be conducted in the summer in the Coastal Plain area? Previously you had given us the number of 100, but given the number of potential camp locations, we are wondering if this is correct? We need a good estimate, if at a later time the number needed turns out to be higher we would need to consult again with USFWS for the work.

Thank-you,

Donna
