**Subject:** Best value approach RFQ Attachment  
**Attachments:** image001.png B08 Coastal Plain RFQ - Best Value Attachment.docx

Please review the attachment that I would be adding to the RFQ for the best value approach. There is a section under part A that would require you to address the subfactors for technical approach.

There is currently a very short example for it that will need to be deleted (highlighted). Other factors that I have seen included commonly are:

- 1) Capability and Experience
- 2) Organization
- 3) Quality Control
- 4) Specific Personnel
- 5) Scheduling Methodology
- 6) Safety

Please let me know if there are questions or concerns. If this approach does not meet what you are looking for, let me know as well.

Thank you.

thank you.

Each factor that we state we also have to state what we are evaluating for (the example shows some sense of this).
