Ms. McGinnis,
Good morning. I am the contracting officer for the referenced requirement and am currently putting together a source selection board for proposal evaluation. Your name was given to me as a possible board member by our Associate State Director, Ted Murphy. Please let me know if you would be able to participate in the board or are interested.

The timeline on this is somewhat short. It is anticipated that the board will meet within the next day or two (telephonically) and should be able to be completed within about half a day.

Performance Work Statement is attached for your reference.

Thank you.

Hi Patrick,

Could you give me more details on the timeline so that I can determine if this will work with my schedule? Thanks, Shelley

Shelley,

I believe we are shooting for tomorrow morning - Alaska time. The plan is to put the documents on Google docs to allow flexibility of review. The board chair, Nicole Hayes, will set a time tomorrow for a consensus meeting. We are anticipating around 4 hours for the total review. I plan to have the documents available later this evening for all board members and to allow for as much flexibility as possible.

Nicole has indicated that she can work with whatever schedule would work for you on this as well.

Thank you.

Hi Nicole,

I wanted to get a few more details. How many proposals will the team be reviewing? What are the selection criteria that will be used? Is there a form that each team member will be completing to assess how each proposal met the selection criteria?

Thanks, Shelley

Subject: Re: Source Selection Board for Coastal Plains EIS
Attachments: image001.png

Hi Shelley,

There is only one proposal the panel will be reviewing. There will be a form to show how each proposal meets the evaluation criteria (technical approach to scope, price, and past performance). There are 4 subfactors to the technical approach to include capacity and resources to meet the scope, experience in EISs that consider O&G development and leasing/regulations specific to Alaska, conforming with all specific tasks outline in Scope and

providing a project plan and milestone schedule demonstrating a reasonable/efficient plan for completing work.

Hi Nicole,

I wanted to get a few more details. How many proposals will the team be reviewing? What are the selection criteria that will be used? Is there a form that each team member will be completing to assess how each proposal met the selection criteria?

Thanks, Shelley

Shelley,

I believe we are shooting for tomorrow morning - Alaska time. The plan is to put the documents on Google docs to allow flexibility of review. The board chair, Nicole Hayes, will set a time tomorrow for a consensus meeting. We are anticipating around 4 hours for the total review. I plan to have the documents available later this evening for all board members and to allow for as much flexibility as possible.

Nicole has indicated that she can work with whatever schedule would work for you on this as well.

Thank you.

Ms. McGinnis,

Good morning. I am the contracting officer for the referenced requirement and am currently putting together a source selection board for proposal evaluation. Your name was given to me as a possible board member by our Associate State Director, Ted Murphy. Please let me know if you would be able to participate in the board or are interested.

The timeline on this is somewhat short. It is anticipated that the board will meet within the next day or two (telephonically) and should be able to be completed within about half a day.

Performance Work Statement is attached for your reference.

Thank you.

Excellent! Thank you so much!

Yes, an IGE was prepared, however, I will say it is extremely basic and based on lump sum of tasks since we do not have comparable work for this type of effort up here. I expect that Patrick will give everyone access to the documents soon and will provide direction on beginning the review, however, please feel free to call me with any questions you may have.

Thank you again,
