Patrick-

Here are the questions we have identified.

- 1) Is it possible to get a few extra days to put the proposal together? This is a complex proposal and the text submission requirements will take some time to assemble.
- 2) Are all biological and cultural resources surveys already completed? If not, those are presumably not part of this RFP?
- 3) In Section 3.2(d) of the RFQ (Page 3 of 6), it states that vendors must propose on all contract line items to be considered responsive. Is there a specific bid form that offerors should use for its price proposal? Please clarify on the contract line items.
- 4) In Section 4.2(b) of the RFQ (Page 4 of 6), it states that the Government shall evaluate quotes by adding the total price for all options to the total price for the basic requirement. Please confirm if this is a typo or advise which tasks are considered base and optional.
- 5) In Section 7 of the PWS (Page 10 of 23), it states that the tentative completion date for the EIS is March 2019, which would entail an approximate 12-month period of performance; however, in Appendix A of the PWS (Page 19 of 23), it shows the timeline for the final task completed in Months 15 and 16. Please clarify the period of performance.

Sincerely,

Nicole,

More questions from another vendor. Based on two vendors currently requesting extensions to the proposal time, I believe we are in need of some extension.

I will address questions 3 and 4 of this.

Thank you.

I will get responses to all these to you this morning. A few of them (the forms they ask about) I'm assuming you will provide? And do we make a decision on the extension now?

Patrick-

Here are the questions we have identified.

- 1) Is it possible to get a few extra days to put the proposal together? This is a complex proposal and the text submission requirements will take some time to assemble.
- 2) Are all biological and cultural resources surveys already completed? If not, those are presumably not part of this RFP?
- 3) In Section 3.2(d) of the RFQ (Page 3 of 6), it states that vendors must propose on all contract line items to be considered responsive. Is there a specific bid form that offerors should use for its price proposal? Please clarify on the contract line items.
- 4) In Section 4.2(b) of the RFQ (Page 4 of 6), it states that the Government shall evaluate quotes by adding the total price for all options to the total price for the basic requirement. Please confirm if this is a typo or advise which tasks are considered base and optional.
- 5) In Section 7 of the PWS (Page 10 of 23), it states that the tentative completion date for the EIS is March 2019, which would entail an approximate 12-month period of performance; however, in Appendix A of the PWS (Page 19 of 23), it shows the timeline for the final task completed in Months 15 and 16. Please clarify the period of performance.

Sincerely,

Dawn,

Thank you for letting me know. If there are changes to the RFQ - extensions or the like - would you like to be included on the notifications? I would not like to count you out if this is something that could change your decision.

Thank you.

Patrick-

We had some further discussion today and have decided that we will not be submitting a proposal for this RFQ. My apologies for not letting you know sooner.

Sincerely,

B08 Attachment 2.0 Award Basis Factors.docx

Good Morning,
Please see the revised RFQ. This is in response to a question received about the evaluation and ambiguity in the RFQ regarding whether this was LPTA or Best Value Trade-Off. This will be evaluated on a best Value Trade-Off basis.

Thank you.
