The RFQ for the referenced Requirement has been sent to the vendors (3) for response. I will keep everyone informed as this progresses or questions are received.

Thank you.

Just FYI - I received a call from the NOC (Michelle Elliott) that they were approached by one of the vendors on the BPA that the timeline is much too short. She also said that in her professional opinion for this level of document it was an unrealistic timeframe and recommended the timeframe be extended to a month (or at least another week). I told her that the timeframe was set by the BPA itself ("in general, the Government intends to give contractors 7 days to submit a quote") and the scope was coordinated with the Administrative CO who said the scope appeared to be well within the scope of the BPA.

I just wanted pass on the concern so you were aware.

Nicole

Thank you. It is interesting that I have received no responses from the vendors myself. I do believe that this may indicate that we can expect very little response from the vendors, but we can hope for at least one.

While the BPA does say the the Government intends to give contractors 7 days, it is always dependent on the circumstances of each individual request. I agree it is a short timeframe and was always one of the concerns.

I am reaching out to each contractor to touch base and ensure that they are aware I am here for questions.

Thank you.
