Understanding Assessments: The Comprehensive Animal Welfare Program promotes the welfare of wild horses and burros during management activities while minimizing stress and ensuring humane care, handling and treatment. CAWP assessments evaluate compliance with standards during the activities taking place at the time of the assessment. This framework helps ensure a clear and unbiased evaluation of events or actions as they occur. Here are some key points:

- **Holistic Approach:** Assessments reflect the entirety of the activity, not targeting individuals or specific groups.
- **Time-Specific:** The evaluation focuses solely on the observed circumstances during the assessment period.
- **Limitations:** Previous or subsequent events are not accounted for, meaning the assessment is a standalone observation.

General Notes and Comments from the CAWP Team: During the assessment, the team observed sorting and weaning of foals, and some of the gentling process at the training portion of the off-range corral. The handlers worked well together to keep an efficient, effective, and safe working environment for staff and wild horses by ensuring the process flowed well. The staff demonstrated skills in handling the wild horses, ensuring that the animals' health and well-being remained their priority.

Many upgrades to the facility were observed during the assessment; some upgrades included new shelter for the compromised animal pens and covers on edges of the guard rails used for the pens. Many of the pens had recently been scraped and cleaned in preparation for winter.

Requirements of Permanent Instruction Memorandum (PIM) 2021-002, Wild Horse and Burro Comprehensive Animal Welfare Program (CAWP):

- All state, district, and field offices will continue to comply with the WHB CAWP policy within their jurisdictions at all times. This includes the CAWP Standards for Off-Range Corral Facilities, Transportation, and Adoption/Sale Events.
- All personnel, including contractors and partners involved in the care, handling, and transportation of wild horses and burros at off-range corrals and adoption/sale events are required to complete training annually.

All personnel were current with CAWP training.

Conditions found to be in non-compliance with the CAWP Standards for Wild Horse and Burro Off-Range Corrals:

Facility Design

Standard

- 1.II.F Fences in pens, alleys, and working chute systems must be not less than 6 feet high for horses, 5 feet high for burros, and the bottom rail must not be more than 12 inches from ground level.

Non-Compliance: The height of the fencing in some locations was less than 6 feet due to accumulation of manure or dirt and sinking of the panels.

Preparation Procedures

Standard

- 1.IV.D.6 Facilities must adhere to the current BLM vaccination policy.

Non-Compliance: The BLM vaccination policy requires vaccinations to be given every six months. Booster vaccinations were missing on some of the randomly selected paperwork that was reviewed.
