The 42 Divide Forest Management Plan Environmental Assessment (EA), Finding of No Significant Impact (FONSI) and Decision Record (DR), which underlies the East Dice Timber Sale, Contract No. ORR05-TS-2007.0002, has been challenged in the United States District Court for the District of Oregon, Eugene Division. The plaintiffs have requested that the Court vacate and set aside the DR, FONSI, and EA. The Authorized Officer may exercise his/her discretion to award the contract for this sale without waiting for a judgement from the Court. The Bureau of Land Management (BLM) will proceed with normal bidding on the tract.

The Northwest Coastal Resource Management Plan covering the Cavitt Crumbs timber sale, contract number ORR04-TS-2027.0003, has been litigated. The court's decision is pending. The Bureau of Land Management (BLM) will proceed with normal bidding on the tract.

Although the BLM does not know at this time how the Court will rule, the BLM is providing this notice to advise all bidders that significant delays may occur before award of the contract or before any operations may be undertaken. Additionally, an adverse ruling may require the BLM to suspend, cancel, or modify the contract. The Authorized Officer retains the right to reject all bids associated with this tract.

The high bidder must submit the signed Notice of Litigation Acknowledgement along with their written bid.

FOR SBA SET-ASIDE TRACTS, the bidder must not have been determined by the Small Business Administration to be ineligible for preferential award for set-aside sales and must accompany the bid deposit with a self-certification statement that the bidder is qualified as a small business concern as defined by the Small Business Administration in its regulations, Title 13, Chapter I, Part 121 (Revision 7) as amended, of the Code of Federal Regulations. NOTES:

1. Seasonal restrictions apply to this sale regarding logging operations, use of native surfaced roads and road work. Refer to Sections 44(A)(5)(b), 44(A)(6)(b), 44(A)(7)(b), 44(A)(12), 44(A)(13), 44(A)(14), 44(A)(15), 44(B)(2), 44(C)(3)(c), 44(C)(4)(d), and 44(F)(1)(e)(8) for details. A "seasonal restriction matrix" is included with this prospectus to serve as a guide in planning and scheduling operations.

2. For Harvest Areas 1, 2, 3, and 7, and portion of Harvest Area 4, as shown on Exhibit G, no operations, except portions of road renovation and hauling, may be conducted from March 1 to September 15, both days inclusive of each calendar year due to the potential disruption of spotted owls.

   The government shall conduct surveys to determine whether spotted owls are present within one quarter (0.25) mile of the Harvest Areas. If it is determined that spotted owls are not nesting, the Authorized Officer may, in writing, lift the seasonal restriction for that year.

3. License agreements with Lone Rock Timberland Co. and Roseburg Resources Co. are required. The terms and conditions of the license agreement are available for inspection at the Roseburg District Office.

4. During logging operations, the Purchaser shall keep Road 30-9-11.0 (Twelve Mile) and Road 31-8-8.2, clear of trees, rock, dirt and other debris so far as is practicable. The road shall not be blocked by such operations for more than thirty (30) minutes unless otherwise approved by the Authorized Officer.

Refer to Section 44(C)(4) for details.

7. As appraised, approximately 85% of the sale area is available for wet season operations, including Harvest Areas 2, 6, and 7, and portions of Harvest Areas 1, 4, and 5 (101 acres). Wet season operations may be maximized at the Purchaser's expense by:
   - Adding rock to Road 31-9-1.5 adjacent to Harvest Unit 5, as necessary for wet season cable yarding, instead of ground-based yarding (approximately 10 acres).

In order to maximize wet season operations, a logging plan must be submitted and approved by the Authorized Officer.

8. This contract contains provisions for the sale and removal of additional timber necessary to facilitate safe and efficient Purchaser operations. NOTES:

1. Seasonal restrictions apply to this sale regarding logging operations, use of native surfaced roads and road work. Refer to Sections 44(A)(6)(b), 44(A)(10), 44(A)(11), 44(A)(12), 44(A)(13), 44(B)(2), 44(C)(3)(c), and 44(C)(4)(d) for details. A "seasonal restriction matrix" is included with this prospectus to serve as a guide in planning and scheduling operations.

2. A license agreement with Seneca Jones Timber Company is required. The terms and conditions of the license agreement are available for inspection at the Roseburg District Office.

3. Slash disposal requirements consist of the following: machine piling, covering and burning slash and debris within a fifty (50) foot radius of landings. The Purchaser will have the option to assist in burning or to make a buyout security deposit to the Bureau of Land Management in lieu thereof. Refer to Sections 44(F) and 44(H)(1) for details.

4. Girdling (or felling) of approximately 534 trees in the Harvest Land Base to create snags (or down woody material) after completion of logging operations will be required. The Purchaser will have the option to complete the required snag creation work or to make buyout security deposit to the Bureau of Land Management in lieu thereof. Refer to sections 44(G) and 44(H)(2) for details.

5. This contract contains provisions for the sale and removal of additional timber necessary to facilitate safe and efficient Purchaser operations. It is estimated that approximately 91 MBF of such additional timber would be removed under the contract but is not included in the advertised sale volume. Refer to Sections 44(A)(8) and 44(A)(9) for details.

   In addition, this contract contains provisions for the protection and retention of trees that are greater than or equal to 40 inches DBH and that were established prior to 1850; trees meeting these criteria may be cut, if necessary for safety or operational reasons, but they will be retained as the property of the government and will not be sold or otherwise removed from the contract area. Refer to Sections 43(e), 44(A)(8)(b), 44(A)(9)(a), and 44(A)(9)(e)(3) for details.

6. As appraised, approximately 52% of the sale area is available for wet season operations, including portions of Harvest Areas 1, 3, 4, and 5 (43 acres). Wet season operations may be maximized at the Purchaser's expense by:
   - Cable yarding portions of Harvest Areas 3, 4, and 5 to the existing rocked roads approved for wet season operations, instead of ground-based yarding (approximately 4 additional acres).
   - Adding rock to Road 27-3-27C and constructing and rocking Road 27-3-26.3 in Harvest Area 2 for wet season cable yarding, instead of ground-based yarding (approximately 10 additional acres)
   - Adding rock to Road 27-3-27.2 in Harvest Area 1 for wet season cable yarding, instead of dry season cable yarding (approximately 3 additional acres)

   In order to maximize wet season operations, the Authorized Officer must approve the logging plan, and a contract modification may be required.

7. At the Purchaser's request, portions of the sale area with slopes less than 60 percent could be operated with tether-assist mechanized equipment instead of cable yarding. In order to utilize tethered equipment on the sale area, the Authorized Officer must approve the logging plan and a contract modification may be required.

Note: This matrix is provided to serve prospective purchasers as a guide only; refer to the timber sale contract Special Provisions for a complete statement of the seasonal operating restrictions.
