RECREATION SITES

The first three columns apply to recreation sites installed and operated as of 6-30-64 by the Bureau of Land Management. The last column shows the number of recreation sites as of 6-30-64 which BLM had provided to other public agencies by cooperative agreement, lease, sale, permit or special legislative act. Those agencies, in most cases, install recreation facilities and manage their use, but BLM manages timber, forage, and other resources.

Created in 1849, the Department of the Interior – a Department of Conservation – is concerned with the management, conservation, and development of the Nation's water, wildlife, mineral, forest, range, and recreational resources. It also has major responsibilities for Indian and Territorial affairs.

As the Nation's principal conservation agency, the Department works to assure that nonrenewable resources are developed and used wisely, that park and recreational resources are conserved for the future, and that renewable resources make their full contribution to the progress, prosperity, and security of the United States – now and in the future.
