

NEVADA
Introduction to Off-Highway Vehicle (OHV)
Recreation Management Workshop

Tonopah, Nevada

Friday, June 18, 2004

Purpose: To conduct an educational forum on off-highway vehicle recreation management for land management decision makers, recreation planners, resource specialists, local government and community interests, and leadership representatives from the Nevada OHV recreation public.

Objectives:

- To create better understanding of the OHV public's needs and desires;
- Examine environmental issues surrounding OHV activity;
- Encourage collaborative management efforts;
- Share more effective ways to manage OHV recreation; and
- Improve the planning, design, construction, maintenance, and management of OHV facilities, areas, trails and trail systems in order to:
 - Minimize impacts to natural and cultural resources;
 - Better meet the needs and desires of the OHV recreation public; and
 - Reduce conflict between recreation and other public land stakeholders.

NEVADA
Introduction to Off-Highway Vehicle (OHV)
Recreation Management Workshop

Tonopah, Nevada
