

WILD HORSE AND BURRO PROGRAM

Highlights from Fiscal Year 2018

The Bureau of Land Management's (BLM) Wild Horse and Burro Program continues to make progress toward the goal of managing healthy wild horses and burros on healthy public rangelands as required by the 1971 Wild Free-Roaming Horses and Burros Act. With limited available management tools and a rapidly growing population, the BLM continues to seek innovative and humane solutions to put the Wild Horse and Burro Program back on a sustainable track.

INCREASED GATHERS

11,000

 wild horses and burros

were removed by the BLM from more than **50 Herd Management Areas (HMA) and Herd Areas in FY18**, 3x more than the average of 3,500 over the previous five years.

SLOWED ON-RANGE GROWTH

Due to increased removals, **population growth on the range slowed** from about **9,000 in FY17** to about **6,000 in FY18**.

FY 2017

9,000 animals

FY 2018

6,000 animals

An additional **4 HMAs** reached an **appropriate management level**.

REDUCED HOLDING COSTS

\$1,000,000
taxpayer dollars saved

Despite a slight increase in the average off-range population, the **BLM transferred more animals from corrals to pastures**, saving taxpayer dollars.

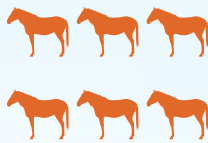

HELPING VETERANS

The BLM supported the launch of **Mission Mustang™** — a new pilot program in coordination with the non-profit organization EquiCenter — **focused on gentling wild horses and healing veterans.**
